## What are the risks of investing?

Risk indicator for the AMP Capital Listed Australasian Property Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [sorted.org.nz/tools/investor-kickstarter](https://sorted.org.nz/tools/investor-kickstarter).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

### Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

## Notes

The transition completed during the quarter to 30 September 2021 and, with effect from completion of the transition, BlackRock Investment Management (Australia) Limited (BlackRock) commenced providing investment management services to AMPWM for its wholesale funds. The fund performance in the table shows fund performance which relates to both AMPWM (with support from BlackRock) and AMP Capital.
- 2 The total fund charges are inclusive of any applicable GST.
- 3 The Manager's basic fee has been estimated using the maximum amount payable by an investor. Lower fees may apply to investors depending on when they joined, whether their account is locked-in and if they negotiated an ongoing fee with their Adviser. To find out what fees are applicable to you, please contact your Adviser.
- 4 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 5 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
